

T050 Large Deck Bracket

Installation instructions

Package contents: T050 large Deck Bracket

- Bracket designed to be mounted on a horizontal surface.
- Use 4 non-magnetic screws of a size to fit boat.
- Screw through bracket base and into boat.
- Use sealant to seal bracket to boat.

If bracket is in a position likely to be snagged by ropes:

- Use the two eyelets at top of bracket to fasten elastic around mast.

Bracket is then a permanent fixture. Bolt the cradle to the bracket, then simply snap your instrument into the cradle each time you sail.

WARNING

- Use non-magnetic screws of a size which will not damage any boat parts under the surface on which bracket is mounted.
- Compass is accurate only when mounted within 20° of the vertical. Do not lean compass to port or starboard.
- Do not mount within 2' or 0.6 m of magnetic objects. Note that a conventional compass is a magnetic object.
